

NIIT University (NU) hosts 'Camp Future' for students who have recently completed Class XII, offering a glimpse into the future

Top leadership of NU interacts with students to discuss various career opportunities

A glimpse of 'Life as a Nuton': Provides aspiring students an opportunity to experience the campus

Established with a vision to bring about innovation in higher education and learning in emerging areas of the knowledge society, the University of the Future, [NIIT University \(NU\)](#) hosted Camp Future, a unique two-day initiative for students who had recently completed Class XII. The programme offered students and their parents an opportunity to experience campus life, explore various career pathways, and get a first-hand feel of university life before the commencement of college.

Designed as an immersive and interactive experience, Camp Future aimed to help students and their parents make informed decisions while choosing the right university. The initiative gave aspirants a glimpse into life at NU through a day-long campus experience that included interactions with the university leadership team, faculty members from their chosen streams, and senior students. Participants also got the opportunity to stay in the hostel, enjoy meals at the university mess, learn about NU's unique geo-thermal cooling system, trek across the lush green campus, and witness the iconic Astachal sunset experience.

The first edition of Camp Future this year was organised on 25 and 26 April 2026 at the NU campus. More than 200 students and their parents participated in the two-day event at the Neemrana campus. The next edition is slated for the second week of May 2026. Students who attended Camp Future have already secured early admissions across various disciplines at NU.

Speaking on this unique initiative, Prof Prakash Gopalan, President, NU, said, *"Choosing the right college and academic programme is one of the most important decisions in a student's life, as it can significantly shape their future career path. To help students and their families make this choice with greater confidence, we are proud to present Camp Future – an immersive two-day experience designed exclusively for NU aspirants and their parents. It offers them an opportunity to explore the campus, experience life at NU, and envision the journey that lies ahead."*

The event was widely covered by the press both online and in print.

Programmes offered by NIIT University

NU offers new-age programmes such as BTech Artificial Intelligence and Data Science, BTech Cyber Security, BTech Robotics and Automation, BTech Biotechnology, that have been designed to provide students with skill sets aligned to the future world of work. Students can also opt for BTech in Computer Science & Engineering, BTech in Electronics & Communication Engineering, 3-year BBA, BBA in Artificial Intelligence, BBA in Business Analytics and 5-year Dual Degree Integrated Masters in Business Administration (iMBA) programmes after class 12.

With the thrust on making students job-ready, NU has made hands-on in the industry a critical part of the coursework for all the programmes in the form of industry-originated classroom projects, [summer internships](#) and the flagship six-month course – the [Industry Practice](#). NU's BTech programmes, in fact, give 35% weightage to practical learning opportunities. [NU's Centre for Industrial Collaboration \(CIC\)](#) invites leading companies to participate in the University's summer internship and Industry Practice programmes and ensures that the students find the right fit to their chosen career path.

About the university:

Established in 2009, NIIT University (NU) marks 15 years of excellence as a leading not-for-profit institution under Section 2(f) of the UGC Act, notified by the Government of Rajasthan.

With a focus on creating original thinkers for the future's knowledge society, NU inherits decades of expertise from the esteemed NIIT Group. Nestled in a beautiful 100-acre campus at Neemrana, Rajasthan, just 90 mins away from Delhi airport, NU focuses on emerging technology and management areas.

The university's fully residential green campus in the serene Aravalli hills fosters an intellectually vibrant environment for higher education and research. Committed to being a beacon of learning, innovation, and sustainability, NU strives to build successful careers and provides exceptional education grounded in its Four Core Principles: Industry-linked, Technology-based, Research-driven, and Seamless.

Education World's prestigious rankings in 2021 and 2022 recognized NU's standing, placing it 2nd among the top universities in Rajasthan and 22nd amongst 100 private universities in India in a prestigious survey conducted by Education World in 2022.
